PINK RUFFLES

LAVENDER MASTERPIECE

BLEEDING HEART

HAPPINESS

SUNSHINE

LANCER (448) (Baerman-Weeks 1962) (Purple Burma x Poinsettia). Mid-season. Our picture does not do justice to the splendid ruffling of this rich, deep-toned true red. Lancer grows five and one-half feet tall with formal tapering spikes that make it a natural for cutting. A most attractive rich red that will have wide appeal.

Large, each \$1.00. Medium, 75c. Small, 50c. 10 bulblets for \$1.00.

PINK RUFFLES (444) (Baerman-Weeks 1962) (Innocence x Emperor). Mid-season. If you like ruffles you will be enthusiastic about this intensely fluted deep pink with glowing creamy yellow throat. Pink Ruffles grows fully five feet tall. Its beauty will make it an acquisition in any fancier's garden. Compared to Friendship, it is rosier in color, the ruffling is far more intense, and it grows about six inches taller. A truly classy Glad.

Large, each \$1.00. Medium, 75c. Small, 50c. 10 bulblets for \$1.00.

LAVENDER MASTERPIECE (564) (Baerman-Weeks-Gove-Frazee-Turk 1962) (Emperor x Seedling). Early-midseason. This giant lavender received an accolade from four prominent garden visitors with the result that stock was split four ways. To give you an idea of the size of the florets we measured an ordinary table saucer and found it to be 5 3/4 in. in diameter. These florets are even larger and almost as round. With up to eight giant ruffled blooms open at once, a spike is really a thrill. The color is lighter than the picture indicates—a beautiful sparkling lavender. Lavender Masterpiece is truly a magnificent Glad that will delight the heart of every fancier.

Large, each \$2.00. Medium, \$1.50. Small, \$1.00. 10 bulblets for \$2.00.

BLEEDING HEART (401) (Baerman-Majeski 1961) (Seedling x Seedling). Early. This happily named white with snappy scarlet blotch surrounded by an eighth-inch band of clear yellow is an excellent novelty which should prove immensely popular. Bleeding Heart opens eight or more blooms with formal

placement on precisely perpendicular stems. A heavy bloomer from bulblets. Excellent propagator.

HAPPINESS (446) (Baerman-Weeks-Majeski 1961) (Innoence x Caribbean). Early-midseason. This luxurious, sumptuous red with soft golden throat has the most gorgeous, most stylish, most incredible ruffling we have ever seen in any Glad. Indeed, the origin of Happiness is something of a mystery. (It was one of a pair of mavericks that bloomed in a row of whites, light blues, and rose-pinks!) The extra heavy substance combined with the superbly stylish ruffling, fine attachment, stretchy 60-inch spikes with 9 open and 20 buds make this a Glad of pre-eminent beauty, performance and uniqueness. Happiness is as brilliant as a shower of fireworks in the sky. Watch this beauty move toward the top in the national symposium! Champion Seedling at Minnesota Glad Society Seedling Show, 1960. Three-spike Seedling Champion at Central International Show, 1960.

SUNSHINE (416) (Baerman-Majeski 1961) (A. B. Coutts x Orange Seedling). Midseason-late. This is a marked improvement over Spotlight, being a slightly richer yellow with a slightly larger, brighter scarlet blotch. In addition it opens 50% more florets and is a taller grower (60 in.). Over-all it gives a much snappier, more clean-cut and massive effect. This looks like a coming commercial.

SHOW WINNINGS - - 1961

Pink Prospector was outstanding last summer as a show winner, partly because it is a very fine variety and partly because it has a little better distribution than some of our new things, such as Happiness. Here are some of the winnings of Pink Prospector which have come to our attention: At the Momenca, Illinois Glad Show (in the heart of one of the largest Glad growing areas in the U. S.) Peter Romein & Sons won the following awards on Pink Prospector: Grand Champion Basket, Reserve Grand Champion Basket, Champion Commercial Three-Spike, and Champion Commercial Five-Spike. All these awards were the result of growing only one hundred bulbs. Pink Prospector held better than any other Glad at the show, looking fresh at the end of three days, according to a letter from the exhibitor. At the Boise, Idaho, show (Treasure Valley Show) Mrs. Vernon Bateman won the Grand Championship with Pink Prospector. At the Western International, Weeks' Glad Gardens won the Grand Championship with Pink Prospector. H. Mahle won the New-comer Championship with Pink Prospector at the show at St. Paul, Minnesota. Syd Cartmell won the Recent Introduction Championship with Pink Prospector at the S. E. Michigan Show, and it was also Section Champ at the Mid-Michigan Show. The Reserve Grand Champion at the Sacramento, Calif. Show was Pink Prospector.

Happiness is probably the fanciest Glad ever introduced, but at \$4.00 each last year its distribution was naturally rather limited. However, it was the Grand Champion at the Illinois regional at Edwardsville as shown by Dr. Earl Hamilton, probably the most successful Glad exhibitor in America. At the Fox River, Wisconsin, show, Happiness was the best single spike introduction. We expect Happiness to go to town as it comes down in price.

Rainier, which was Grand Champion at Iowa in 1960, was Recent Introduction Champion this past summer, as shown by Geo. Summa. As shown by Dr. Earl Hamilton at the Eastern International, Rainier was Co-Reserve Champion.

Ivan Payne won the Three-Spike Grand Championship at the Southern California show with Lavanisque and also the 300 and 400 Section Championships.

Ivan Payne also won the 500 Section Championship with Goliath.

Rose Parade won the Reserve Championship at the Spokane Show for Eugene Farmer.

Lavender Frills was the Champion Six-Spike entry at Spokane for Mrs. L. H. Jorgens.

(from the Dec. 1961 N.A.G.C. Bulletin)

At the Red River Valley Show at Grand Forks, N. D., Second Day Grand Champ was won by L. E. Boddy with Pink Prospector. At the Bonneville, Utah, show the Grand Champ single spike was Pink Prospector shown by Royal Gidney. It was also Recent Introduction Champ. At the Central International, at Wabash, Indiana, Pink Prospector won the Second Day Grand Championship for Dr. Earl Hamilton. At the West Virginia show at Wheeling, John Cartmell won a Divisional and Sectional Champ with Pink Prospector.

Rainier, shown by Eugene Farmer, was Reserve Grand Champion at the Western International. At the Upper Michigan show Topaz was Recent Introduction Champ.

In the National Symposium, among the Top Ten varieties introduced in 1960 and 1961 are Rainier, Pink Prospector, and Happiness. Sydney Mode, who writes the annual season's summary for the national N.A.G.C. Bulletin, speaks very highly of the above three but includes Golden Rosette and Goliath in his Best Ten 1961 releases. (Goliath is already in 5 th place among the deep salmons in the National Symposium, although introduced only last year).

ROSE FESTIVAL (454) (Baerman-Majeski 1961) (Innocence x Rosie O'Grady). Midseason-late. This 60-inch, bright cerise-rose with sharp white blotch differs markedly from our last year's popular introduction, Alpenrose. Both are welcome additions to our small rose class. Women are especially attracted to this unusual color, so difficult to obtain in Glads. Rose Festival should prove an excellent cutter.

GOLDEN ROSETTE (416) (Baerman-Majeski 1961) (Golden Sunshine x Prospector). Late. This is the largest and tallest yellow from this originator. We have had Golden Rosette 72 inches tall. With as many as 11 beautifully ruffled, wide open, waxy florets open at a time on 21-bud spikes. Golden Rosette is a tremendously impressive yellow destined for great popularity. Highly recommended.

CLIMAX (450) (Baerman-Majeski 1961) (Innocence x Caribbean). Mid-season. This ultra-regular rose-pink with beautiful round florets shares a trait found in many prime cut-flower varieties: bulbs of the same size all bloom simultaneously, making a row an impressive sight and facilitating quick cutting. Garden visitors snapped a color picture when they came to this one! 23 buds; 63 inches tall.

BLUE RIBBON (370) (Baerman-Majeski 1961) (Innocence x Caribbean). Early-midseason. This 24-bud medium light blue opens a real ribbon of blooms on spikes about 60 inches tall. Its spire-like flower heads remind one of Delphiniums and it should be a good Glad to plant in groups among perennials. Blue Ribbon never flecks. Some cut-flower growers report a demand by florists for these newer and bluer blues.

GOLIATH (534) (Baerman-Majeski 1961) (Royal Stewart x Southern Belle). Midseason. This enormous deep salmon-pink was chosen Champion Seedling at the Western International Glad Show at Sumner, Washington in 1960. And well it might, since its performance rivals even its size. We counted spikes with ten six-inch blooms open at once out of a total of 26 buds (many in color) with the entire row of large bulbs in bloom at once with ramrod spikes 66 inches tall. A natural for grand champions at shows!

HIGH FASHION (460) (Baerman-Majeski 1961) (Emperor x Maytime). Mid-season-late. A 72-inch variety which we had hoped to name "Skyscraper". Many spikes from large bulbs have obtained a height of 6½ feet. Good lavenders are scarce and this clean true lavender self should prove an excellent cutter because of its exemplary habits. Fine propagator.

MYSTIC MELODY

EARLY SPRING (440) (Baerman-Wagner 1960) (Innocence x Rosita or Campanile). Very early. Here is a light pink as early, or earlier, than Friendship but without the yellow infusion in the throat. Early Spring is a fresh, cool light pink, virtually a self save for a lighter, unmarked throat. Cut-flower growers who have seen this have been enthusiastic about its prospects.

SUNNYDALE (416) (Baerman-Weeks 1961) (Golden Sunshine x Prospector). Late. We wanted to name this classy ruffled medium deep yellow "Gold Lace" because of the lacy quality of its ruffling, but found the name unavailable. So it became Sunnydale. Spikes are fully 60 inches tall with up to 25 buds—unusual for a yellow. This looks like an excellent cut flower. Strongly recommended.

PURPLE SPLENDOR (466) (Baerman-Weeks 1961) (King David x Royal Stewart). Midseason-late. This unusually stretchy purple self looks like an improvement on King David. It is a little less of a red-purple than the latter and more of a true purple. Attractive ruffling and velvety texture make this a very luxurious flower. Good purples are scarce and we think you will like this one. Thirty-inch heads with 23 buds are typical.

YELLOW JACKET (316) (Baerman-Wagner 1961) (Sparkler x Ares). Mid-season. Named after a Florida baseball team which wears flashy yellow and red uniforms, this is one of the sprightliest, most vivid "personality Glads" the originator has ever introduced. With up to 12 intensely ruffled, 3½-inch florets open at one time and with the brilliant scarlet blotches enhancing the golden yellow color, it is as gaudy as a Roman holiday. Simply superb for arrangements. Yellow Jacket has 24 buds, is 60 inches tall. Even large bulblets make beautiful spikes; picture shows a spike from a No. 6 bulb.

A little deeper and richer in color than the latter and more of a self. Early and should be an excellent cut flower. Florists have been looking for good rose Glads. Fine propagator.

This comes from the same cross as Lilac and Chartreuse but is lavender instead of blue-lilac and has a huge throat and splashes of rich golden yellow instead of chartreuse, although upon first opening the throats are quite green. Each of these novelties is quite distinct and both have an important place for connoisseurs seeking extraordinary color combinations and for arrangers planning to make sophisticated arrangements. BLUE LAKE

BLUE PACIFIC (470) (Baerman-Majeski 1960) (Sparkling Eyes x Caribbean). Early-midseason. We were thrilled anew at the five-foot spikes of this refreshing, clean-cut blue in our planting this past summer. Crystal clear and fleck free, the trim blue spikes have the carrying power of Delphiniums. Don't miss this pre-eminent blue!

PINK PARASOL (440) (Baerman-Majeski 1960) (Look x Innocence). Mid-season. This waxy, frilled pure pink outdid itself again this past season. It looks exactly like the color picture. Not just "another pink", but an extra fine pure pink of lovely form and excellent habits. Similar to Friendship, but people write us that it is better.

LILAC AND CHARTREUSE (370) (Baerman-Majeski 1960) (Caribbean x Nordic Queen). Midseason. Want something different? Here it is! True blue-lilac, heavily ruffled with weirdly contrasting chartreuse-green throat and green blotches on the upper petals as well. Utterly novel! This is a real odd-ball among Glads but very attractive, too. A honey in arrangements.

ABIQUA (accented on first syllable) (480) (Baerman-Majeski 1960) (Southern Belle x Innocence). Midseason. A supremely beautiful smoky of heavy substance and superb ruffling. Color is light rose overlain with a distinct silvery sheen—a real changeable silk color. This is one smoky that deserves the adjective "exquisite." Highly recommended.

HENNA (296) (Baerman-Weeks 1960) (Statuette x Unknown). Early. Probably the most unique miniature ever introduced. Very Oriental looking in its chocolate-brown coloring with henna tips and midribs. (Color is far more novel than our picture shows). Henna opens up to 11 florets at once. A supreme novelty for sophisticated Oriental type arrangements. Don't overlook this delightful miniature.

BLUE LAKE (470) (Baerman-Weeks 1960) (Innocence x Caribbean). Mid-season. The blue that's due to supplant Caribbean because of its greater blueness, larger size, and trimly tailored spikes. Nice ruffling and starchy midribs give Blue Lake lots of character. Florists should love this.

50¢ BULBLET SPECIALS

An easy way to start a Gladiolus garden with a substantial number of varieties is to plant bulblets. We offer a VERY GENEROUS amount of bulblets in 50c lots. This offer includes any variety in our whole sale list where bulblets are listed at \$10.00 or less per quart. Quantities will differ with the price of the variety, but all will be generous lots. Prices: F.O.B. Salem, Oregon.

Plant bulblets 2-3 inches deep in a flat-bottomed furrow. Some varieties will bloom in a small way from bulblets. These bulblets will grow into bulbs of mixed sizes which will give you an abundance of fine bloom the next season. This is a good way to start a small cut-flower business if you are so situated.

DAZZLER

MISS SALEM

SUNNY MORN

DAZZLER (534) (Baerman-Majeski 1962) (Vermilion Beauty x Golden Rosette). Late. Salmon-pink is probably the most common color among Glads, but the much warmer tones of true salmon are much more unusual, even a little uncommon. Dazzler is not as deep-toned as our picture and has a stronger infusion of yellow. Its glowing color and velvety nap give it a luxuriance that justifies its name. The flat-open florets, set well apart, have tremendous substance and a pleasant hint of ruffling. They are actually larger than saucers (6in.) and almost as round. The massive, uniform spikes, over five feet tall, are superb for cutting. A Glad of unsurpassed vigor with very heavy foliage. A 1959 first-bloomer, Dazzler could not be introduced so soon were it not for its fantastic propagation. It will pay you to get in on the ground floor with this rugged, fast-multiplying beauty. We think Dazzler tops in its color class and a prospective breeder.

Large, each \$3.00. Medium, \$2.00. Small, \$1.25. 10 bulblets for \$2.50.

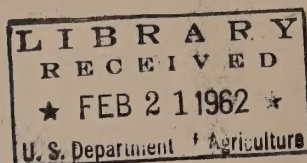

MISS SALEM (450) (Baerman-Majeski 1962) (Innocence x Campanile). Midseason. Our color picture fails to show the intense frilling of this ultra-feminine variety. We have had Miss Salem five and one-half feet tall with 27 buds. The light rose-pink color is simply exquisite. For lovers of the cool shades Miss Salem is a "must."

Large, each \$1.50. Medium, \$1.00. Small, 60c. 10 bulblets for \$1.50.

SUNNY MORN (424) (Baerman-Majeski 1962) (Golden Sunshine x Seedling). Midseason. For a long time there has been a dearth of good orange Glads and many have tended to be unduly late. Here is a midseason bloomer of an unusually beautiful light orange color with a most attractive ruffling and ideal habits. The long tapering flower heads indicate a fine cut-flower type. To see Sunny Morn is to fall in love with it. We predict prolonged popularity for this sparkling light orange.

Large, each \$2.00. Medium, \$1.50. Small, \$1.00. 10 bulblets for \$2.00.
